INDEX OF VOLUME 53

REVIEWS

Adhikari S.: Hydroponics and food safety: Key risks and solutions – A review 259

Maryška L., Zelený L.: Plums: Their potential in cultivation, breeding, and use 169

ORIGINAL PAPERS

Atmaca S., Yolcu H.I., Erdoğan G., Sert H., Gübbük H.: Performance of different banana varieties (*Musa* spp. AAA) under protected cultivation in terms of morphological, yield and quality characteristics 27

Azhar A., Dahliani L., Purnamawati I., Russianzi W., Meliala M.G., Istiqomah F.N., Cahyo A.N., Ehara H.: Investigation of morphological, photosynthetic traits, and arbuscular mycorrhizal fungi root infection in sago palm (*Metroxylon sagu* Rottb.) under saline conditions 110

Aziz S.S., Othman Abdullah F., Al-Qaaneh A.M., Micucci M.: Biomass production of lettuce: Nitrogen fertiliser and harvesting period effects on phytochemical composition in growth chamber-grown 129

Barut Gök S., Özdüven F., Eryılmaz Açıkgöz F., Yağcılar Ç.: Effect of the application of phycocyanin from *Arthrospira platensis* (*Spirulina platensis*) as fertiliser on bioactive compounds in microgreens 119

Boukary A.A., Yabi L.N., Piepenbring M., Yorou N.S.: Optimising oyster mushroom (*Pleurotus ostreatus*) cultivation in West Africa: Soybean straw as a promising substrate 276

Bouziane Z., Sebti H.: Identification of essential oils of *Mentha rotundifolia* from north-east Jijel region and their antifungal potential against *Botrytis cinerea* 213

Datta S., Dey S., Asif S.M., Bhattacharya S., Das S., Mandal C., Mandal K.K., Al-Shuraym L.A., Alkeridis L.A., Sayed S., Gaber A., Hossain A.: Integrated nutrient management improves soil fertility, leading to improve the productivity and quality of aonla (*Emblica officinalis* L.) 306

Enríquez-Valencia A.J., Mata-Rosas M., Pérez-Torres C.-A., Ibarra-Laclette E.: Somatic embryogenesis and *in vitro* plant regeneration of Manzano (AAB) and Pelipita (ABB) banana cultivars 100

Guzu G.M., Zagrai I., Moldovan C., Roșu-Mareș S.D., Zagrai L.A., Chiorean A.M., Cordea M.I.: Development of a hybrid apple population: MAS-based testing for *Vf* gene detection and preliminary field evaluation of its scab resistance 59

Karunakaran G., Pavithra G., Sivaramakrishna V., Sakthivel T., Arivalagan M., Kalaivanan D., Thirugnanavel A., Ruchitha T., Abhilash K.: Determination of LD_{50} and GR_{50} for gamma irradiation in dragon fruit (*Hylocereus* spp.): Comparative study of red and white cultivars 249

Kaya Ç.: Comparative analysis of peg-induced *in-vitro* drought stress responses in strawberry (*Fragaria* × *ananassa* Duch.) cultivars 317

Korkutal İ., Bahar E., Uysal Seçkin G., Akıncı D.: Impact of thinning level and timing on yield, maturity, and quality of Merlot grapevines under the Big T trellis system 227

Liu C., Wang L.Y., Li J.J., Fang Y.P.: The effect of exogenous salicylic acid on the germination and seedling growth of sweet melon (*Cucumis melo* L.) seeds under NaCl stress 235

Liu Q.Q., Huang Z.J., Tian X.L., Tan Z.W.: Seasonal changes in *Elaeocarpus sylvestris* leaf colour and physiology 160

Loganathan M., Thangavelu R., Muthubharathi K., Bagavathi S., Shiva K.N., Prabhu G., Kaushik B., Sandip H., Mohanasundram A., Selvarajan R.: Effect of pre-harvest chemical treatments on post-harvest disease control and quality enhancement in banana fruits 182

Michutová M., Neoralová M., Jílková B., Víchová J., Pluháčková H., Šafránková I.: Powdery mildew (Erysiphales) on ornamental plants in the Czech Republic 1

Morales-Morales E.J., Morales-Rosales E.J., López-Sandoval J.A., Vilchis-Granados G.B.: Eco-physiological attributes of *Physalis philadelphica*, *Physalis angulata* and *Physalis pubescens* in the Valley of Mexico 138

Öz M., Okan O.T., Baltacı C.: Phenolic and antioxidant assessment of the flowers, stems, leaves, and fruits of *Rosa pimpinellifolia* and *Rosa canina* at different growth time 15

Pola W., Tira-umphon A., Buensanteai K., Aiamla-or S.: Modified atmosphere packaging influences germination and seedling growth of organic-coated cucumber (*Cucumis sativus* L.) seeds 38

Sarker B.C., Islam S.S., Farhana K., Hakim M.A., Khomphet T.: Investigating the role of 6-BAP and 2,4-DPA in enhancing biochemical nutrients and reducing fruit drop and cracking of litchi cv. Bombai 148

Shen Y.X., He S.C., Song J.Y.: Changes in nutritional components and physiological parameters of *Acer griseum* stem cuttings during rooting 326

Shin J., Kang S., Cui M., Lee N., Lee H., Myung J., Chun C.: Pre-harvest UV-B radiation during the dark period enhances phenolic compounds in *Agastache rugosa* cultivated in a plant factory with artificial lighting 268

Soliman W.S., Saad-Eldeen K., Abbas A.M., Alshaharni M.O., Gahory A.A.: Comparative evaluation of IBA and NAA effects on rhizogenesis and shoot morphogenesis in rose stem cuttings 204

Uysal Bayar F.: Determination of yield and biochemical characteristics of turmeric (*Curcuma longa* L.) grown in subtropical climate zone 49

Wan J.F., Zou M.H., Song X.M., Yang Q., Zeng H., Zhao Y.: A comparison of seven macadamia cultivars for suitability to the high altitude and high latitude climate of southern Tibet in China 93

Wu Q.A., Yang J.W., Ren S.X., Hu M.L., Li Z.Y.: Effects of culture media composition on protocorm-like body formation and seedling mortality in *Holcoglossum amesianum*: Insights from micromorphological observations 336

Wu W., Hu K., Gong M., Yao X.H., Yang S., Song Q., Li X.Y., Yang Q., Wang Y.: Combined analysis of transcriptomics and metabolomics reveals the regulatory mechanism of branch bending on leaf bud development in *Carya illinoinensis* (Wangenh.) K. Koch. 290

Xu S.R., Pei L.L., Zhou H.H., Hu Y.J., Tong L., Ma R.L.: Effects of nitrogen on the hydraulic characteristics and biomass allocation in *Notopterygium franchetii* in the Qinghai-Tibet Plateau 193

SHORT COMMUNICATIONS:

Qi C.D., Zhou J., Peng D., Zhao Q.Q., Wu F.H., Wu J.P., Guo F.L.: Exogenous selenium treatment promoted garlic (*Allium sativum* L.) growth and improved product quality 70

Su J.W., Li H.X., Guo Y.S., Liu L.M., Chen J.F.: Optimisation of seed germination and seedling cultivation conditions for *Bruguiera gymnorrhiza* and *Acanthus ilicifolius* in a plant factory 81
